PROPERTY OF THE MONTH

# HOT PROPERTY

The Property of the Month is chosen by the *Homes Worldwide* team and, in our opinion, is the best value and best-looking, or has the best features of the houses and apartments we have seen

Our property of the month is carefully selected from the hundreds of photographs and details that we receive in the office every month. Property agents and developers submit their homes for sale in the hope that we will feature them in *Homes Worldwide*, and sometimes we find a true gem that stands

out from the crowd, such as this attractive Canadian home. We like the look of this five-bedroom house, set among its own 108 acres of grounds, we also like the build quality and the fact that you get a swimming pool and your own private three-hole golf course - all for only £285,000. A real bargain!
